Senior Adult Educators – Recognising their competences

****An international conference aiming to discuss the importance of giving adequate recognition of senior adult educators' skills and competences by means of innovative and effective validation instruments.****

Launch of the Flexi-Path Toolkit

September 20th 2010 at UniClub Bonn, Germany

Hosted by the German Institute for Adult Education (DIE)

Senior Adult Educators – Recognising their competences is a one-day conference promoting greater recognition of the professional status of European adult educators.

The conference:

- will **launch the Flexi-Path Toolkit**, a systematic approach to analysing and validating senior adult educators' competence profiles at EQF Level 6 and 7 through the construction of a professional portfolio: the toolkit is already receiving very positive responses from colleagues;
- will **celebrate** 2 years of **work in research and development**;
- will **focus on** the challenges and possible action lines for **portfolio building** and **competence validation** for professional adult educators;
- is a **chance to meet the team** that put the Toolkit together.

For more information on the Flexi-Path initiative,
please visit our website www.flexi-path.eu.

*The **Senior Adult Educators – Recognising their competences** event is free to the public.*
